

TRACK GUIDELINES FOR FACE MASK OR COVERINGS

As was announced on 8/11/2020 by the State of New Hampshire, face mask or coverings will be required going forward in both the grandstand area as well as the pit area using these guidelines. Face masks/coverings must be worn in the following areas:

Grandstands

- When entering the speedway as you purchase tickets
- When leaving the speedway
- While you are at the concession stand
- While you are in the Turn One Tavern
- When walking around the midway
- When visiting the restrooms

When you are seated with your group in the grandstands, proper social distancing practices will be in place and face coverings are not required

Pit Area

- When entering the speedway and signing in at the booth
- When in the pit area. The only exception is when you are in your own pit area/stall.
- When standing along the fence line while watching the races

Thank you for your understanding. Whether we agree or disagree, this is the hand we are dealt. If we all work together, we will get thru this and continue to have a great season! Again, thank you and we look forward to seeing everybody Friday night!
